Coordinates - ELDS + New London Niantic Boulder areas (05Apr16).xlsx
ELIS DSEIS - Chapter 3 (CLEAN) (Submitted 05Apr16).pdf

Hi Jeannie,

Chapter 3 (attached) of the DSEIS (Table 3-8) has all the coordinates for:

- CSDS
- NL Alternative (with the various site dimension options)
- NB Alternative (with various site dimension options)

The coordinates for the ELDS were sent three days ago (reattached here).

I will convert the dimensions for the two boulder fields for the NB Alternative to digital minutes later today and send them along by this afternoon.

I am available most of next week, incl Tuesday for any last minutes edits.

Bernward

Subject: never mind last email.

Hi Bernward,

Please just sent me an email that tells me the corner coordinates in your new figure ABCD and what point they are equivalent to in the spreadsheet.

For the other information, I will have to put it all together and send it off.

So you know, the boundaries are listed in the FR w/corner coordinates (for ELDS) minus the large outcrop to the north

Thanks..

Nothing on this yet. Are you available Tuesday? I will be going through the document again and want to know if you are available if there is any other formatting issue or anything we missed.
thanks
